King of the Street	Pass tech.	Yes No
6 Speed Challenge	Pass tech. Restricted to vehicles with a 6 speed manual transmission.	Yes No

TEXAS INVITATIONAL OPERATING RULES

1. **TI is an “invitational”.** Participation is not an entitlement. Discretion is used when arranging the driver roster, regardless of whether a vehicle can pass technical requirements. Once a driver returns a tech sheet and they are selected, an invitation will be sent to them via email.
2. **Failure to Grid Timely.** Drivers will have a reasonable time (example: 15 minutes) between heats. TI staff has the absolute authority to disqualify drivers. Grid calls will be announced over the public announcement system. If a driver misses a grid call the TI staff will disqualify them. This means a spark plug change, chute repacking, refueling, cooling, tuning adjustments, and so on must be done in the pits between heats. If you show up to the grid late, you will be disqualified.
3. **Failure to Stage Timely.** Once you are in the staging lanes, you will be expected to move forward to run your pairing when it is your turn. Failure to do so will result in disqualification.
4. **Support Vehicles.** No support vehicles will be allowed in the staging lanes. Perform all icing, mechanical work, and so on exclusively in the pits.
5. **Media.** With the exception of sponsors and approved publications, no media will be allowed outside of the pits and grandstand area.
6. **Registration and Inspection.** The local police department and the TI staff will spot check all drivers for valid registration and inspection stickers (for compliance with tech requirements).
7. **MPH Indexing.** King of the Street and 6 Speed Challenges will be arranged similar to a NHRA Pro Ladder. Ladder positions will be slotted based on MPH, which will be recorded with our speed trap system during qualifying heats. There will be a qualifying heat
8. **Communication.** During the event, do not contact the persons operating TI for personal favors.
